ABOUT ME

Passionate Software Engineering undergraduate at Uva Wellassa University with hands on experience in web development. Experienced in building reliable and user friendly applications and sharing technology insights through articles. Seeking a software/web development internship to apply technical skills and contribute to meaningful projects.

EDUCATION

Bachelor of Information and Communication Technology Honours

2023 – Ongoing

Uva Wellassa University of Sri Lanka

GCE Advanced Level

2019-2021

Pushpadana Girls' School, Kandy

- Technology Stream -2B ,1C

PROJECTS

Planora - Event Planning Platform

Dec 2025 - Jan 2026

Developing the frontend of a full-featured event planning platform. Users can browse and filter a dynamic vendor marketplace with portfolios, pricing, availability, and ratings, fill event details, manage a real-time cart and budget tracker, and interact with a vendor portal interface.

- TypeScript, React, Tailwind CSS

HappyTails – Smart Pet Adoption & Rehoming Platform

Nov 2025 - Ongoing

Participated as Frontend Developer in a full-stack group project to create a modern platform connecting adopters, shelters, and pet owners. The project aimed to streamline pet adoption and rehoming, offering features like smart filters, role-based access, real-time updates, and a responsive interface.

- React, Tailwind CSS ,Typescript

AriyaHome Construction Pvt Ltd

Sep 2025 - Dec 2025

Developed a full-stack web application to streamline client inquiries and service management for construction businesses. Built a responsive, user-friendly frontend and integrated it with a secure backend to handle inquiries, data validation, and real-time communication.

- React, Tailwind CSS, Axios, Node.js, Express, MongoDB

ClariFi – AI-Powered Decision Companion

Nov 2025 - Dec 2025

Built a full-stack web application leveraging AI to help users make informed decisions by summarizing situations, identifying key variables, and recommending actionable next steps. Developed as a personal project to address decision-making challenges in real life.

- React, TypeScript, Tailwind CSS, Node.js, Express, Cohere AI

Linkora – Social Networking Platform for University Students

May 2025 - Aug 2025

Linkora is a full-stack social networking platform designed to connect university students, helping them showcase skills, achievements, and collaborate on projects. Developed as a group project, with my role as Frontend Developer, responsible for building responsive and interactive user interfaces.

- Next.js, Tailwind CSS, Express.js
